

Increased safety in heavy lifting operations

WRIN

The WRIN STR Handle is a safety handle that provides additional safety to the Gunnebo Industries' BK safety hook family. With the WRIN STR Handle the operator opens and closes the safety hook without placing any hands inside the hook, resulting in reduced risk of personal injury on worksites. The handle is easily mounted to the safety hook, without compromising the integrity of the design and capabilities of the hook.

Unique design

- Can be attached to safety hooks within the BK family, without compromising the integrity of the hook's design and capabilities.
- The handle is clamped to the hook and fixed by the hook's trigger pin.

Quality stainless steel

- Made of AISI 316.

Improved workplace safety

- With the WRIN STR Handle there is no need to place a hand inside the safety hook. This reduces the risk of personal injury on worksites.

Easy retrieval

- Hole for attaching a lead line for easy retrieval.

WRIN STR Handle

Suitable to safety hooks within the BK family

With the WRIN STR safety handle you get all the clever features offered within our BK safety hook range, together with the extra safety needed in high risk applications and harsh environments.

The WRIN STR Handle is easily mounted to safety hooks within the BK family. For sling shops the WRIN STR Handle is the perfect complement to the BK safety hooks, reducing the need for a large range of different safety hooks in stock.

Order the WRIN safety handle as a complement to your regular product offer.

WRIN STR Handle

Suits the following safety hooks within the Gunnebo Industries BK family.

Art. no.	Code	Hook size (in)	Dimensions (in)				Suits the following safety hooks:	Weight (lb)
			L	H	B	G
